## Experience

Stone.co 07/2023- Currently

Site Reliability Engineer (SRE)

I work as a Junior Site Reliability Engineer (SRE) with Azure, GCP, and AWS platforms. I implement automations in Python and provide assistance to teams regarding alerts and incidents as requested.

Stone.co 2022 - 07/2023

Operational Command Center (Analista de dados) -  
Infra Analyst

I worked as a Junior Analyst to assist the entire Command Center team and also participate in investigations and incidents involving the technology area. I create pipelines, perform CI/CD, using platforms such as Azure DevOps and Google Cloud Platform. I have learned Python and gained a wealth of knowledge about DevOps culture.

Stone.co 2021 - 2022

Operational Command Center (Analista de dados) - Trainee  
Infra

I used to work as an apprentice to assist the entire Command Center team

DataCorp Mercadata 2018 - 2020

Administrative Assistant

I worked as an administrative assistant on several projects that involved my skills, from tool briefings to technical delivery alongside the team, with the flexibility of working from home.

IRB BrasilRE

2017 - 2018

Administrative Assistant

I worked in the administrative area within the legal department of the company, where I had the opportunity to become familiar with the Microsoft Office suite and the organizational processes in place.

## About

Hello! I'm Matheus Santos, and I'm looking to adapt to the new. I used to lead projects and teams towards successful outcomes. I'm creative and constantly seek innovation to deliver new solutions. I'm flexible and maintain my integrity.

I work in the IT field, with a stronger focus on web development, and I have a good understanding of code infrastructure. I've always had an affinity and curiosity for technology, taking various courses in both web and hardware environments. I can contribute my experience to the creative and technological process
